

# MAKE YOUR OWN Paperback Hedgehog!

IT'S EASY!

## Materials

- Paperback book (around 180 pages long)
- Scissors
- Pen or Pencil
- Glue
- Something for eyes & nose

## Step 1

- Place the book sideways with the front cover opened towards you. Fold the first page in half lengthwise.

## Step 2

- Fold each corner in towards the spine of the book.

## Step 3

- Repeat steps 1 and 2 until the hedgehog reaches your preferred shape - more pages means a tighter hedgehog. Around 180 pages works well.

## Step 4

- Use a pen or pencil to trace lines on the remaining pages and front and back covers. Cut off this excess.

## Step 5

- Glue on eyes and nose. Add other decorations to accessorize your hedgehog!
